

GELO NIKOLAI T. LAJERA

Computer Engineering Student

(+63) 976 644 3074 | gelo.lajera@gmail.com | Basak, Lapu-Lapu City, Cebu

PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Engineering student at Cebu Institute of Technology - University, with hands-on experience in C/C++ programming and web development. A critical thinker and fast learner with a strong foundation in programming logic, collaborative teamwork, and problem-solving. Seeking an opportunity to apply and expand technical skills in a real-world environment.

EDUCATION

Cebu Institute of Technology - University | 2023 – Present

Bachelor of Science in Computer Engineering (BS CpE)

University of Cebu Lapu-Lapu and Mandaue | 2018 – 2023

Junior High School to Senior High School

Science and Technology Education Center | 2011 – 2018

Elementary to Junior High School

TECHNICAL SKILLS

Programming Languages

- C / C++ — data structures, logic building, backend development
- HTML / CSS / JavaScript — front-end web development
- TypeScript — statically typed JavaScript for scalable apps

Frameworks & Libraries

- Next.js (App Router) — full-stack React framework
- React — component-based UI development
- Tailwind CSS / ShadCN UI — modern responsive styling

Tools & Platforms

- Supabase — authentication, PostgreSQL database and Row Level Security (RLS)
- Git — version control basics
- VS Code — primary development environment

Soft Skills

- Analytical thinking and problem solving
- Team collaboration and communication
- Self-directed learning and adaptability

PROJECTS

COLLAPP — College Application Platform | College Project

Next.js • TypeScript • React • Tailwind CSS • Firebase

- Full-stack platform for managing college applications across students, schools, and admins
- Firebase Auth & Firestore for user management; Cloudinary for document uploads

DevFlow — Multi-Tenant Project Tracking App | College Project

Next.js 14 • Supabase • PostgreSQL • Tailwind CSS

- Multi-tenant app with subdomain-based tenant routing and organization-scoped API routes
- Row Level Security (RLS) via Supabase to enforce strict data isolation per tenant

STeAm Robotics Cup | 2019

- Participated in a competitive robotics challenge requiring hands-on engineering and programming skills
- Collaborated with teammates to design, build, and program a functional robot under time constraints

LANGUAGES

Filipino (Native) • English (Proficient) • Bisaya (Native)
